DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3 - 8, 10, 11, 13 - 17, 19 - 29, and 31 - 34 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 8, 11, 17, 25, 29, and 31 - 34 for example which include a method for providing optical alignment for a visible wavelength reflective system comprising: the first mirror comprising a tolerance stack-up associated with the assembly housing of less than 6.0 microns in a single direction (claim 1); and the positioning a second mirror blank on the lathe fixture, the second mirror blank having a single precision pinhole and generating a second mirror from the second mirror blank (claim 4) ; and the first mirror comprising a tolerance stack-up associated with the assembly housing of less than 6.5 microns in a single direction and the second mirror comprising a tolerance stack-up associated with the assembly housing of less than 6.0 microns in a single direction (claim 8, 17); the mirror blank having bolt holes and the mirror blank operable to be secured to the lathe fixture through the bolt holes (claim 11); a lathe fixture operable to be received in a lathe and the lathe fixture having a single precision pin and a mirror blank operable to be secured to the lathe fixture and

the lathe operable to generate a mirror from the mirror blank (claim 25, 33); and securing the second mirror to the assembly housing through the second precision pinhole and wherein the first precision pinhole and the second precision pinhole lie along optical axis of the reflective system (claim 29, 31, 32, and 34).

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
